SUMMARY

MERN Stack Developer with 1+ years of experience in building scalable web applications using React.js, Node.js, and Express. Experienced in Azure, GCP, and CI/CD automation with GitHub Actions, with a focus on performance, scalability, and cloud deployment.

TECHNICAL & SOFT SKILLS

Languages: JavaScript, Typescript, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Material UI, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL

Cloud & DevOps: Azure, Google Cloud Platform (GCP), Docker, GitHub Actions

Tools: Git, Linux CLI

Soft Skills: Problem Solving, Team Collaboration, Time Management

EXPERIENCE

• Vegas Consulting

Sept 2024 – Present

- Associate Software Developer skilled in DevOps practices and modern frontend frameworks.
- Developed and maintained scalable full-stack web applications using React.js, Node.js, and Express.js.
- Designed and integrated RESTful APIs enabling efficient frontend-backend communication.
- Implemented CI/CD pipelines using GitHub Actions, reducing manual deployment effort & improving release efficiency.
- Deployed and managed applications on Azure and GCP ensuring high availability and scalability.
- Collaborated with cross-functional teams following Agile practices to deliver production-ready features.

PERSONAL PROJECTS

• FitProgressr

- Built a full-stack fitness tracking application with analytics dashboard to monitor user activity and performance
- Designed RESTful APIs and integrated React frontend with backend services
- Implemented responsive UI and data visualization for enhanced user insights
- Tech Stack: React, Javascript, MongoDB, ExpressJS, Material UI, Docker, GitHub Actions
- Link: <https://fitprogressr.netlify.app/>

• Ownlyst

- Developed a responsive notes application with optimized UI/UX and state management
- Improved user interaction through intuitive design and efficient component architecture
- Tech Stack: React, Typescript, Tailwind CSS, Docker, GitHub Actions
- Link: <https://ownlyst.netlify.app/>

CERTIFICATIONS

JLPT N5: Certified in Japanese Language Proficiency Test (N5), demonstrating foundational proficiency in reading, writing, vocabulary, and basic conversational communication.

Microsoft AZ-900: Microsoft Azure Fundamentals certified with knowledge of core cloud computing and Azure services.

- Gained understanding of Azure services including compute, storage, networking, and identity management (IAM).
- Familiar with cloud security principles, pricing models, and cost optimization strategies.

LANGUAGES KNOWN

Tamil* (R/W/S) : Native or Bilingual Proficiency

English (R/W/S) : Full Professional Proficiency

Japanese (R/W/S) : Limited Working Proficiency

Kannada (S) : Limited Working Proficiency
